Groundkeeper's Best™

PREMIUM ICE MELTER

PERFORMANCE

- Groundkeeper's Best™ Premium Ice Melter contains a unique combination of sodium, calcium, potassium and magnesium chlorides plus calcium magnesium acetate (CMA), a corrosion-inhibitor.
- It breaks up ice and melts snow faster than rock salt, even at temperatures as low as -25°F.
- Groundkeeper's Best™ Premium Ice Melter is the perfect way to fight the effects of winter storms.

VISIBILITY

- The safety green color coating ensures that the product is visible before and after application.
- In today's litigious society, where the use of an ice melter in both private and public venues may be required, Groundkeeper's Best™ Premium Ice Melter offers positive proof of performance.

ENVIRONMENTAL

- Groundkeeper's Best™ Premium Ice Melter is formulated so that users can confidently apply the proper amount of ice melt, secure in the knowledge that its effect on the natural world is minimal.

Item: 50lb. bag
